Subject : KISCO joins ZDHC Foundation as a contributor

Dear valued customers,

KISCO is committed to producing safe, sustainable products and is an active participant in a wide range of sustainability programs.

KISCO is a proud member of the Global Chemical Industry Round Table initiative (GCIRT) and is very happy to announce today our decision to join the ZDHC Foundation as a contributor. We will be uploading our key products onto the ZDHC Gateway Chemical Module and support the ZDHC Manufacturing Restricted Substance List (MRSL) and the related “pyramid” conformity system designed to eliminate duplicative approaches. This is the fundamental base to the success of ZDHC and all stakeholders of the textile value chain. KISCO will actively engage in various task forces focused on supporting the continuous improvement programs of ZDHC. As such KISCO, together with the GCIRT Initiative, look forward to a close and open cooperation with all stakeholders of ZDHC.

Please contact our sales representatives if you have any questions.

Kind regards,
Sung-Yong Cho
